

Healthcare Information Technology

As technology continues to open exciting new vistas in healthcare, leading innovators depend on our Healthcare Information Technology Group to help them secure and protect the breakthroughs that empower providers and benefit patients. Many within our team hold advanced degrees in Medicine (M.D.), Computer Science, Biomedical Engineering, Computer Engineering, and Electrical Engineering, giving them unique perspectives that shape this important industry.

We're the first law firm with a portal devoted to providing corporate, regulatory, legal, manufacturing, and other resources to the medical device industry. Find out more at KnobbeMedical.com.

Selected Client Victories & Accomplishments

- Favorably settled Masimo Corporation patent infringement suit involving pulse oximetry and signal processing technologies. After trial and appeal, case settled and Masimo received \$330 million and additional future royalties.
- Favorably settled Nobel Biocare patent infringement suit involving software for surgical planning and rapid prototyping of surgical guides. Case settled after Nobel obtained favorable ruling on summary judgment motion.
- Represented Pacesetter Systems Inc. and Savacor Inc., leading developers of implantable cardiac technology, through their respective acquisitions by St. Jude Medical, Inc.
- Conducted extensive due diligence for C.R. Bard, Inc. in connection with its \$213 million acquisition of SenoRx, a developer of minimally invasive medical devices to diagnose and treat breast cancer. An expansive, technical Knobbe Martens team reviewed over 1,200 patents in under three weeks to facilitate the acquisition.
